### About Me

I am a junior front end developer. I specialize in user-friendly interfaces for websites and web applications. With expertise in HTML, CSS, and JavaScript, I design and implement responsive layouts that ensure seamless user experiences across various devices. Proficient in frontend frameworks like React.js. I have good experience in GitHub. I am committed to continuous learning and staying updated with the latest sectors and excited to begin my career as frontend developer .

### Project

#### Talkme - Chatting Apps
